Bodies

Underwear from a collection that allows extra space for the incontinence material.

The limited arm cut makes it difficult to undress yourself. Zipper and printers are extra strengthened.

The ropper of the zipper falls into the dimple of your neck and does not cause discomfort.

The bodies mainly prevent a bare back, undress, pick and lubricate.

All bodies are for girls and boys / ladies and gentlemen.

Washing instructions

Wash at max. 60°

Wash at max. 90°

Iron on one point (110°)

Iron on two point (150°)

Do not bleach

Dry at low temperature

Dry with normal program

- Wash new, brightly coloured clothing always several times separately.
- Drying at a too high a temperature can cause shrinkage.
- Always wash clothing's with closed zippers and snap-fastening buttons.
- Ironing at a too high temperature is the cause of many problems and complaints.
- Industrial washing of cotton can result in a shrinkage of 10%.
- 4Care is not responsible for it.

jumpsuits

Jumpsuit, one-piece sleepwear. The elastic strap creates a pajama-like look. All jumpsuits have a zipper in the back and extra space for the incontinence material. The ropper of the zipper falls into the dimple of your neck and does not cause discomfort. Prevents bare back, undress, pick and lubricate. Available in many versions. All jumpsuits are suitable for both girls and boys / ladies and gentlemen. Available in 8 colours.

Problems and solutions

For the wearer with behavioral dysfunctions, such as ripping impulses, undressing, picking, smearing, for whom the bodysuit and/or jumpsuit is not advisable, we recommend the rip-resistant bodysuit. It is made from a very strong material and opening the zipper is made more difficult with a snap-fastening cover or ring closure. **Rip-resistant long sleeves, long legs with a zipper- back (2500) Rip-resistant bodysuit with short sleeves, long legs with a zipper-back (2501) Rip-resistant bodysuit with short sleeves, long legs with a zipper- back (2520) Sleeveless rip-resistant bodysuit, short legs with a zipper-back (2530) Sleeveless rip-resistant bodysuit, long legs with a zipper-back (2531)**

Design jumpsuit

4Care puts an end to the dilemma that special clothing does not look good. The design Jumpsuit is in one piece and is a godsend for restless sleepers. But also for people who undress suitably and undisturbed. The Jumpsuit prevents the wearer from coming to the incontinence material. The pattern jumpsuits are all equipped with a zipper in the back and extra space for the incontinence material. The design creates a pajama-like look. All jumpsuits are available in a beautiful jersey quality in various designs and various colours. To simplify the change, there are also jumpsuits with a zipper in the inner leg. The ropper of the zipper falls into the dimple of your neck and does not cause discomfort.

Rip-resistant bodysuits

Where the body and / or the hands are not sufficient, we recommend the rip-resistant body. Rip-resistant bodysuits are for people with behavioural problems including tearing, undressing, picking or lubricating. They are made of very strong material (inside seams are completely reinforced). All suits have a back zipper. Opening the zipper is complicated by a tab with push-button or a ring for a lock. The top of the zipper falls into the dimple of your neck and does not cause discomfort. All rip-resistant bodysuits are for both ladies as gentlemen. Available in many versions and 6 colours.

underwear

When dressing becomes more difficult; slip, tops and undershirts with extra closures such as snap on buttons and /or an extra zipper. Our tops act as a bra and support the back.

The shoulder straps are wider, slightly inward and give a lot of firmness. The Easy click shirts and undershirts make it easier to undress and dress. Convenience and time saving for client and carer.
